IN THE CLAIMS

Please cancel claims 2, 4, 6, and 8.

Please amend claims 1, 3, 5, and 7 and add claim 9 as follows:

1. (CURRENTLY AMENDED) A wrapped bolster seal for doors of a motor vehicle comprising:

at least two door panels, further comprising one being the a wet side door panel and the other being the a dry side door panel;

a rib; and

edge wrapping layers; around said wet side door panel

wherein said rib is embedded so as to create a seal between said wet side door panel and said dry side door panel, said seal adapted to reduce moisture from contacting said edge wrapping layers.

- 2. (CANCELLED)
- 3. (CURRENTLY AMENDED) The wrapped bolster seal as in claim 1, wherein said rib is higher than then the maximum thickness of individual said edge wrapping layers.
 - 4. (CANCELLED)
- 5. (CURRENTLY AMENDED) A wrapped bolster seal for doors of a motor vehicle comprising:

at least two door panels, <u>further comprising</u> one being the <u>a</u> wet side door panel and the other being the <u>a</u> dry side door panel;

a rib;

edge wrapping layers-around said wet side door panel; and

a foam-like material;

wherein said rib is embedded within said foam-like material so as to create a seal between said wet side door panel and said dry side door panel, said seal adapted to reduce moisture from contacting said edge wrapping layers.

- 6. (CANCELLED)
- 7. (CURRENTLY AMENDED) The wrapped bolster seal as in claim 5, wherein said rib is higher than then the maximum thickness of individual said edge wrapping layers.
 - 8. (CANCELLED)
- 9. (NEW) The wrapped bolster seal as in claim 1, further comprising a pair of extended members opposite said rib, wherein said rib is embedded between said pair of extended members so as to create said seal.
